Summary

A student of software engineering with a solid background in Java, data structures, and solving problems with algorithms. Has experience making interactive apps and using data to make solutions that work well. Has worked in IT support and system troubleshooting, with a focus on solving real-world problems in schools.

Education

University of New Mexico

Aug 2024 - Present

Bachelor of Science, Computer Science, Mathematics

Albuquerque, NM

- **Achievements:** Cumulative GPA: 3.70/4.00

- **Coursework:** Data Structures & Algorithms, Software Engineering, Operating Systems, Design of Large Programs, Java, C, Python

Work Experience

Information Technology Classroom Academics (UNM) Feb 2025 -Present
Albuquerque, NM

Student Consultant I

- Provided Tier 1 technical support for classroom systems, troubleshooting hardware, software, and AV issues
- Diagnosed and resolved system failures to minimize downtime during academic sessions
- Assisted in system setup, configuration, and maintenance across multiple OS environments (Windows, macOS, Linux)

Computer Operator & IT Support Lead

Student Quality Circle (SQC) – Simara, Bara, Nepal
May 2019 – September 2021

- Spearheaded technical support operations for events, ensuring all IT equipment, from computers to AV systems, ran smoothly.
- Designed and delivered PowerPoint presentations, showcasing team results and progress.
- Assisted with the configuration and repair of computer systems, improving overall team efficiency.
- Provided first-line technical support to students and staff, solving issues related to software, hardware, and network connectivity.

Projects

Hexagonal Minesweeper (Java, Swing)

- Built GUI-based Minesweeper using a custom hexagonal grid
- Implemented BFS for efficient cell reveal logic
- Designed event-driven UI with game state management and difficulty levels

Postfix Calculator (Java)

- Implemented stack-based evaluator for postfix expressions
- Used polymorphism for extensible operator handling
- Applied HashMap for dynamic operator execution

Skills

- **Database & Programming Languages:** Java, JavaScript, Python, C,
- **Software Tools:** IntelliJ, C Lion, VSC, Excel, Google Sheets, Cherwell Ticketing System, Windows, MacOS, Linux, Git
- **Frameworks & Libraries:** React
- **Communication & Interpersonal:** Strong Problem-solver, Teamwork, Effective Communicator, Time management, Critical-thinker, Decision-maker

Certifications

- **International Amigo Scholarship:** Awarded the International Amigo Scholarship for maintaining a GPA of 3.0+, providing instate tuition benefits.
- **Dean's List, School of Engineering:** Consistently recognized on the Dean's List for maintaining a GPA of 3.5+ across multiple semesters (Fall 2024, spring 2025).
